Roksnet Trust Services Price List

Document code: TSPL

Version: 1.0

Published: 4 November 2026

Effective date: 5 November 2026

Publisher: Roksnet Solutions OÜ

This price list sets the fees for Roksnet Trust Services. It forms part of the Trust Services documentation.

All fees are in euro (EUR) and exclusive of VAT. Fees are one-time for the chosen validity, unless a monthly arrangement is agreed in writing.

1. Certificates

Certificate	1 year	2 years	3 years
AUTH certificate (per Security Server)	EUR 100	EUR 190	EUR 270
SIGN certificate (per organisation)	EUR 175	EUR 300	EUR 375
AUTH + SIGN bundle (one Security Server)	EUR 275	EUR 490	EUR 645

One AUTH certificate is required per Security Server. At least one SIGN certificate is required per organisation.

For each paid certificate for a Security Server in the Production Environment, one certificate of the same type and validity for a Security Server in the Development Environment is issued free of charge.

2. Status and timestamping

Service	Included volume	Fee
OCSP for AUTH and SIGN	Up to 2,232 responses per certificate per month (20-minute interval)	Included
Timestamping	Up to 44,640 tokens per Security Server per month (1-minute interval)	Included

Higher OCSP or timestamping frequency is available on request and is priced separately.

3. Other

- Reissue or re-key during the validity period, where the Subscriber requests it: the fee for a new certificate of the same type and remaining term, or as agreed.
- Revocation: no fee. Fees are not refunded when a certificate is revoked at the Subscriber's request or on closure of the Member Account.
- Identification in Self-Service is not part of this price list.

4. Payment and changes

Fees are invoiced through Self-Service when the certificate is ordered. The certificate is issued after the invoice is paid.

The fee applied is the fee in effect at the time of the certificate order. Roksnet may amend this price list with at least 30 days' prior notice. A change does not apply to a certificate already ordered.

Roksnet may issue written confirmations of discounts and free-of-charge periods for Trust Services. An issued confirmation binds Roksnet within the scope, volume, duration and conditions stated in it. An amendment of this price list does not alter a confirmation already issued.
